REPORT OF THE BOARD OF EDUCATION.

The School Board respectfully submit the following report for the year of 1888-9.

We think the past year has been one of average prosperity and progress, considering the amount of money given us to expend.

We have purchased a dictionary for each school, and chairs for the houses where they were needed, and we hope that before many years there will be many articles placed in the rooms where the children of the town are sent to lay the foundation of their education, with hardly anything to make their studies plain or interesting and nothing to make the place attractive.

Our schools have we think given general satisfaction. Our teachers have, with one exception, been faithful in the discharge of their duties, and lest they or others think we do not give sufficient credit for their labor, we will say that we mean a good deal when we say a school is good or satisfactory. We do not claim perfection has been reached or that we do not expect decided improvement. We have heard no complaint on the part of the parents, except from one school, and there according to our best judgment the fault did not lie wholly with the teachers.

The citizens of Perham Corner raised thirty dollars to lengthen their winter term, thus showing the interest they take in the education of their children, for which they have our heart-

felt congratulations, and may the act be an example that will exert an influence throughout the town.

Our schools are mostly small and badly classed, making it hard for the teacher to get up the interest that they could with larger classes, and we hope the time is near when this state will furnish text-books, thus making more uniformity throughout the town and enabling the teachers to better classify the schools.

Our teachers' meeting held December fifteenth, although attended by but few of the parents and having no scholars in attendance, from the south school, we consider quite a success, and we thank the teachers and scholars for the readiness with which they complied with our request to be present.

We think it the duty of parents to visit school more frequently than they do. Visiting them on examination day can give but a small idea of real school work, and many do not even do that, and we think no one is justified in giving an opinion in regard to a school they have not visited. It is also a benefit to the pupils to become accustomed to visitors.

Parents should abstain from discussing the failings of a teacher before their children, as it takes away the respect that should be felt for a teacher by pupils, and desist from allowing them to point out the errors committed by other members of the school.

One thing has been a great trouble to your committee, and that is the large number of absent marks we see in the registers. Steady attendance of pupils lie wholly with the parents, and we consider that by allowing their children to stay out of school when they choose, they show disrespect to the laws of the State, the committee, the teachers, and also a disregard for the education of those coming up to fill the places made vacant by the older members of society, and as in these progressive times education determines the position a person shall occupy, it is the duty of each parent to assist, and where it is necessary, to insist on their children making the most of their educational

advantages, and this can be done only by constant attendance and obedience to all the rules of the school.

We hope another year will see a longer roll of honor, and that committee, teachers, parents and pupils will labor to bring our schools to a high standard, and that by faithful labor on the part of committee, parents and teachers, and faithful study and obedience on the part of the pupils, keep them there, that they may be an honor to all concerned.

We thank all for the courtesy that has been shown us, and hope each year will see marked improvement in the schools of Lyndeborough.

Roll of Perfect Attendance.
